

CHEER AGE DIVISIONS

Division allocation is determined by the "league age" of a child. A child's "league age" is determined by whatever the child's age was on July 31st the year **PREVIOUS** to the year in which the current YSFL season is being played.

The YSFL Cheerleading program provides for divisional age teams as well as "Open" teams that allow coaches to field mixed age group teams. The YSFL Cheerleading competition will include a championship event for each of the divisions. Teams may enter their cheerleaders into multiple division events at the State YSFL Cheer competitions.

Age Divisions
